

Crops included in the National Annex (Category 1) by country (March 2024).

Species and species sub-groups for which a sufficient number of varieties from organic propagation is available are assigned to Category 1. The use of organic plant reproductive material (PRM) is obligatory. Derogations for the use of untreated, non-organic PRM is normally not possible (exceptions for variety trials, basic seed for the production of organic seed, conservation of genetic diversity).

If you notice any inaccuracies, please contact us at seeds4organic@fibl.org.

COUNTRY	Species and species sub-groups in CATEGORY 1	
AUSTRIA	no category 1	
BELGIUM	Been: Climbing French Bean (Stick Bean, Pole Bean) Beetroot: Round red Celery (Blanching): Green Chard (Silver Beet, Swiss Chard): Chard leaves, Red cabbage stalk, White cabbage stalk Claytonia (Miner's Lettuce, Winter Purslane) Cucumber Endive Kohlrabi Leek Lettuce: Lollo Lettuce, Oak-leaf Lettuce	Maize: Grain Maize, Silage Maize Mustard: White Mustard Oat: Lopsided Oat, Bristle Oa Onion: Sowing Onions Onion sets Pumpkin: Butternut, Hokkaido Radish: Black Radish, Oil Radish, Clover Radish Spelt: Winter Spelt Sweet Pepper Triticale: Winter Triticale
